

# PRICOM 3100 Series

## EXTERNAL MINI PRINT SERVER

For more than a decade, silex technology has set the bar for leading edge print technologies. In fact, silex technology is the number one supplier of network printing solutions in Asia. Our secret? We're never content with our most recent success.

Introducing the PRICOM™ 3100 Print Server, the most reliable, high quality network print server on the market today. The PRICOM 3100 is easy to install, use and manage. The *first* to support the latest Internet protocol, **IPv6** and offers unique advanced security features that put users in control of printer access.

### COMPATIBILITY, FLEXIBILITY ARE THE NAME OF THE GAME

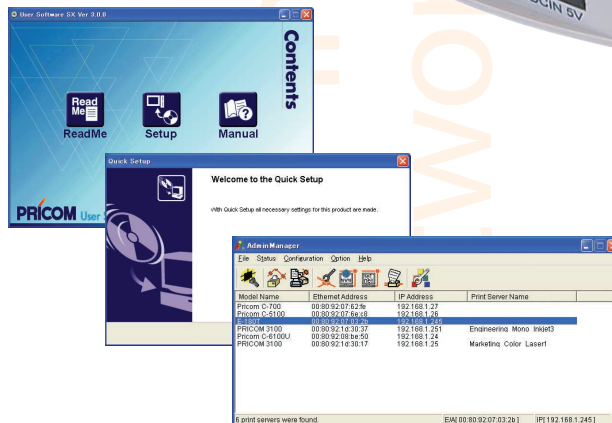

With the PRICOM 3100, compatibility is never an issue. It is configured with all the protocols necessary to connect in almost all network environments and is compatible with every common client operating system.

The PRICOM 3100 supports bi-directional communications, across many operating systems, with a wide range of today's popular printer models. In fact, this palm-sized, multi-protocol print server is compatible with common network system platforms and virtually all major printers using a parallel interface.

In addition, with the PRICOM 3100 Internet Printing Protocol (IPP) support, users can print to any accessible printer via the Internet.

### POINT AND CLICK SETUP, EASY TO MANAGE

The PRICOM 3100 Print Server's intuitive on-screen Wizard walks users through configuration, step by step. It's as easy as point and click. "Admin Manager" is the configuration utility included making it easy for the network administrator, or experienced user to manage multiple devices over the network. Additionally, the PRICOM 3100 monitors for and instantly alerts the network administrator to a variety of defined printer error conditions via a window message or email.

- 3100
- TCP/IP
- Net BEUI
- IPX/SPX
- AppleTalk
- Windows
- UNIX Linux
- NetWare
- Macintosh
- 10/100 Base

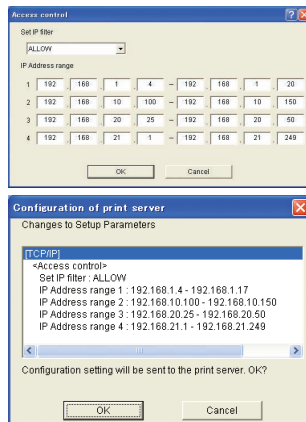

- 3100 TCP/IP<sup>1</sup>
- TCP/IP
- Net BEUI
- Windows
- UNIX Linux
- 10/100 Base

**SUPPORT FOR JetAdmin / Web JetAdmin**

Since the PRICOM 3100 recognizes JetAdmin and Web JetAdmin, the PRICOM 3100 Print Server can be centrally managed using these popular tools.

**IP FILTERING MEANS ENHANCED SECURITY**

The PRICOM 3100 offers IP Filtering, an enhanced security feature that allows the network administrator to control access to a printer by specifying authorized IP addresses or a range of authorized IP addresses. In addition, the PRICOM 3100 configuration screen makes it easy to set or modify the IP address accessibility.

**LOOKING TOWARD THE FUTURE**

The only thing that never changes when it comes to technology is the regularity with which things change. IPv6, anticipated to replace IPv4 as the new Internet protocol standard, will enable growth of the Internet by expanding the current IP address standard, clearing the way for a virtually unlimited number of user addresses, a critical issue for many areas of the world where IPv4 user addresses are in short supply. The PRICOM 3100 Print Server supports the new, advanced Internet protocol so users position themselves for future compatibility.

**EASY RETRIEVAL OF EMAIL MESSAGES**

For designated addresses, the PRICOM 3100 can browse or retrieve e-mail messages from the mail server and print them automatically to a printer. No PC is required. Users minimize the risk of overlooked emails, an important concern for time-sensitive applications such as sales or customer support inquiries.

**STREAMLINED PRINT DATA DISTRIBUTION**

An IPP/LPR client driver, the JC-Print 2002, allows for streamlined peer-to-peer direct printing from Windows® 9x clients to designated printers, eliminating the need for an independent server to manage the printers on the network.

**UPGRADE WITH THE TOUCH OF A BUTTON**

The PRICOM 3100 Print Server has built-in flash memory, so upgrading firmware is as easy as logging on to our web site and downloading the latest functionality. With access to the latest silex technology development, users protect their IT investment for the long term.

**WHY silex?**

For over a decade, silex technology, a global leader in embedded network printing technology, has designed, manufactured and marketed leading-edge print servers designed to help businesses improve the way they move information.

For more information about how the PRICOM 3100 Print Server can help your business, contact us at the sales office nearest you or visit one of our web sites.

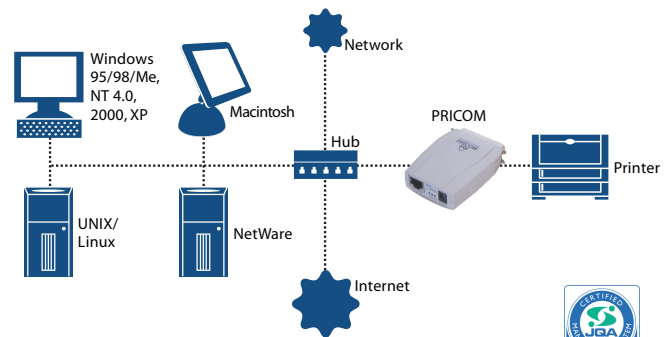

**TECHNICAL SPECIFICATIONS**

<b>Supported OS</b>	Windows 9x, Me, NT 4.0, 2000, XP Sun OS, Solaris, HP-UX, IBM AIX, Linux NetWare 3.x/4.x/5.x/6 (Bindery/NDS) Mac OS 7.6/8.x/9.x, Mac OS X (Classic)
<b>Supported protocols</b>	TCP/IP LPD, IPP <sup>2</sup> , Raw socket #9100, FTP, HTTP, TELNET, SNMP, POP3, SMTP, DNS, DDNS, DHCP, BOOTP, RARP, TCP, UDP, ARP, IP, ICMP NetWare AppleTalk Windows IPX, SPX, NDS, Bindery, R/PRINT PAP, AT, ZIP, RTMP, NBP, DDP, AARP, AEP, ELAP NetBEUI, NetBIOS over TCP, WINS
<b>Configuration</b>	Quick Setup Utility, Admin Manager Utility, Web Browser, TELNET
<b>Printer interface</b>	IEEE 1284 compliant Parallel Interface
<b>Network interface</b>	10 Base-T / 100 Base-TX (auto-detection)
<b>Language</b>	UK English, US English, German, French, Spanish, Italian, Japanese, Chinese, Portuguese, Brazilian Portuguese, Russian, Latin American Spanish
<b>Warranty period</b>	2 years
<b>Power supply</b>	Universal AC Adapter (100-240V) for USA, Japan, Europe, UK, China Or Parallel 18PIN power (Selectable by DIP switch) <sup>3</sup>
<b>Power consumption</b>	5V 500mA
<b>Regulatory approvals</b>	FCC, CE, VCCI Class B
<b>Package contents</b>	PRICOM 3100 print server, Quick Setup Guide poster, CD-ROM with configuration utilities and PDF manual, AC Adapter
<b>Dimension (WxDxH)</b>	2.4 x 3.3 x 0.9 in / 62 x 85 x 23.5 mm
<b>Weight</b>	2.8 oz / 80 g

<sup>1</sup> PRICOM 3100 TCP/IP does not support NetWare or Macintosh.

<sup>2</sup> IPP (Internet Printing Protocol Version 1.0)

<sup>3</sup> The print server must be powered with more than 5V/500mA from the printer parallel port. Please consult with the printer manufacturer for the capability.
